

CB

If the mentor becomes unresponsive, and you have tried to connect multiple times, send a last email. Maintain an upbeat tone, and express that you understand that commitments can pile up. Express that you'd like to stay connected, thank them for the mentoring they have given, and wish them luck in their endeavors.

Again, this applies only if you have made multiple attempts to connect and your mentor is unresponsive. Contact the Program Director Vladimir at v-fernandez1@neiu.edu if you have any concerns.
