Choosing a Major and Career

MyPlan www.myplan.com

MyPlan provides self-assessments for students to take to learn about their interests, skills, and values as they relate to majors and careers. After taking the assessments, a list of recommended careers is provided. Students can learn more about those careers, including suggested majors. There is also the option to search for specific majors and careers. The NEIU license code (FV36H5JK) is needed to have free access to all of the assessments.
